THE EVENING WIND.

Spirit that breathes through my lattice, thou
That dost thrill the twilight of the sunny day,
Gently flows thy freshness round my brow;
Thou hast been out upon the deep sea play,
Raising all day the wild blue waves that now
Roughen thy crest and scatter
And welling the white sail. I welcome thee
To the scorching land, thou wanderer of the sea.

Nor alone—a thousand bosoms round
Inhale thee in the fulness of delight;
And languid forms rise up and pulse bound
Liveller, at coming of the wind of night;
And languishing to hear thy grateful sound
Lies the vast inland stretched before thy sight.

Go forth into the gathering shade, go forth,
God's blessing breathed upon the fainting earth;
Go, rock the little wood-bird in his nest,
Curl the still waters, bright with stars, and
Rouse

The wild old wood from his majestic rest,
Summoning forth from the immovable boughs
The strange, deep harmonies that haunt my
breast.

Pleasant shall be thy way where meekly bows
The shutting flower, and darkling waters pass,
And where the overshadowing branches sweep
The faint old man shall lean his silver head
To feel thee; then shall slumber the child asleep,
And dry the moistened curls that overpread
His temples, while his breathing grows more
deep.

And they who stand about the sick man's bed
Shall joy to listen to thy distant sweep,
And softly part his curtain to allow
Thy visit, grateful to his burning brow.
Go—but the circle of eternal change,
Which is the life of Nature, shall restore,
With sounds and scenes from all their mighty
range.

Thou to thy birth-place of the deep once more
Shalt glide in the beams of morning light,
Shalt tell the home-sick mariner of the shore,
And listening to thy murmur, he shall deem
He hears the rustling leaf and rattle of
the sea. W. C. Bryant.

The Chinese as House Servants.

Rev. A. L. Stone, Pastor of the First
Congregational Church, has been writing
in the *Congregationalist*, published in
New York, a letter, in which he dis-
cusses the Chinese question. He has
written the Chinese as house servants, and
following is his testimony in regard to them:

"I have now for many months em-
ployed the Chinese as house servants, and
I would not go back to the old style of
domestic service for any consideration.
The new servants do their work nimbly
and noiselessly. The quiet of the kitchen
dishes is very noticeable. The in-
creased economy is equally a matter
of surprise and joy. All mysterious
looks seem somehow to be stopped.
Sugars, and teas, and spices, and but-
ter, and all the small household stores,
hold stores 'go further' than once. All
odds and ends are saved. Roasted birds
and half turkeys come back upon the
table, and are dragged into the kitchen,
only garnished anew and made
presentable. There is no demand for
evenings out or half days for private
sewing and mending. There is no 'an-
swering back'—only cheerful acquies-
cence. There is no complaint of large
washings or festal cookery, or irregular
meals. There is no entertaining of
company, making 'high life' below
stairs. There are few words of English, it is
easy to make them understand. Once
shown how to do a thing, whose meth-
od is novel to them, they will do it with
their ingenuity in the variation of table
dishes is quite surprising and gratifying.
Their patient steadiness and good tem-
per under all their trials, and the strict
fidelity to their employers' interests,
makes 'housekeeping' a strange luxu-
ry. And on the other side there is
positively scarcely one disadvantage to
be urged as an offset to this manifold
gain."

Although he does not say so in direct
terms, the reverend gentleman implies
that the Irish, German and American
girls, who are compelled to go out to
service, are purveyors of "sugars, and
teas, and spices, and butter, and lard,
and all the small household stores,"
and that they are in the habit of enter-
taining friends and company in the
kitchen upon the cold joints, pies, cakes,
etc., which are left over from dinner.
The Reverend Doctor has, by innuendo,
labeled the poor wretched girls of Amer-
ica, and that, too, for the purpose of
singling the praise of a thieving race of
southern heathens. Shame upon you,
Doctor, for employing Chinese,
and casting your doubts upon the lan-
guage of white girls.—S. F. Call.

FATE OF THE APOSTLES.—Matthew
is supposed to have suffered martyrdom,
or was slain in the city of Ethiopia.
Mark was slain in the city of Alexandria,
in Egypt, till he expired.

Luke was hanged on an olive tree in
Greece.
John was put into a burning caldron at
Rome, but escaped death. He died a
natural death at Ephesus, in Asia.

James the Great was beheaded at Jeru-
salem.
James the Less was thrown from a
pinnacle and beaten to death.

Philip was beheaded.
Bartholomew was skinned alive.
Andrew was crucified.
Thomas was run through with a lance.

Jude was shot through with arrows.
Simon was crucified.
Matthias was stoned.
Barnabas suffered to death.

Peter, after his release, journeyed to
Rome where he held at bay all the se-
cret artifices of the people, and even
confuted the malicious qualities of Si-
mon, the entertainer and pleasure-
maker of Nero, the Emperor. He alone
converted one of the monarch's concub-
ines to Christianity, which so fearfully
enraged that tyrant that he ordered
both Peter and Paul to be arrested.
Peter was taken out of prison for execu-
tion, which was carried into effect by
being fearfully scourged and crucified,
with his head downwards.

Paul was afterwards beheaded by Nero's
successor.

IRON LATHS are the latest idea in
building. We have iron roofs, iron
fronts, brackets, window-caps and sills,
joists, and now we have the additional
items of laths, which are made of num-
ber twenty iron, wire gauge, and one
and a half inches wide, resembling one
and a half inch hoop-iron, with a small
ridge or head in the middle to stiffen it.
The laths are cut into proper lengths,
and afford additional security from fire.
A Pittsburgh mill is at present employ-
ing on large orders for iron laths.

A HEAVY BILL.—It is said that the
bills of the physicians who attended
the persons wounded by the late rail-
road disaster in Alameda county vary
from \$1,000 to \$3,000, and that the total
claimed against the Western Pacific
railroad amounts to about \$25,000 for
their professional services.

John Sutter Mill's Letter on Chinese.

The following letter was addressed to
Henry George, now editor of the Oak-
land *Transcript*:
AVIGNON, France, Oct. 23, 1869.

DEAR SIR:—The subject on which
you have asked my opinion involves
two of the most difficult and embar-
rassing questions of political morality
—the extent and limits of the right of
those who have first taken possession of
an unoccupied portion of the earth's
surface to exclude the remainder of
mankind from inhabiting it, and the
means which can be legitimately used
by the more improved branches of the
human species to protect themselves
from being hurlingly encroached upon
by those of a lower grade in civiliza-
tion. The Chinese immigration into
America raises both these questions.
To furnish a general answer to either
of them would be a most arduous un-
dertaking.

Concerning the purely economical
view of the subject, I entirely agree
with you; and it could hardly be bet-
ter stated and argued than this in your
recent issue of the 17th inst. "The
Chinese immigration, if it attains
great dimensions, must be economi-
cally injurious to the masses of the
present population; that many of the
finest wages and reduce them to a
lower stage of physical comfort and
well being, I have no manner of doubt.
Nothing can be more fallacious than
the attempts to show that the Chinese
laborer is a more efficient worker for
lower wages is the way to raise them,
than that there is any compensation, in
an economical point of view, to those
whose labor is displaced, or who are
obliged to work for a greatly reduced
remuneration. On general principles,
this state of things, were it sure to
continue, would justify the exclusion of
the emigrants, on the ground that
they would habitually respect to popu-
lation, only a temporary good is done
to the Chinese people by admitting part
of their surplus numbers, while a per-
manent and improved portion of man-
kind is sacrificed."

But there is much to be said on
the other side. It is justifiable to as-
sume that the character and habits of
the Chinese are those of a more im-
proved race. The institutions of the
United States are the most potent
means that have yet existed of spread-
ing the most important elements of
civilization down to the poorest and
most ignorant of the laboring masses.
If every Chinese child were compul-
sory brought under your school sys-
tem, or made a member of your com-
munity, and kept under for a suffi-
cient number of years, would not the
Chinese population be in time raised
to the level of the American? I believe,
that the Chinese, as a race, are more
industrious, more obedient, and more
greatly to be trusted than the Ameri-
can. As long as this is the case, so long
as the Chinese do not come to the
United States to compete with the
American laborer, and return to their
native country, the evil can hardly reach
so great a magnitude as to require that
it should be put a stop to by force.

But, if the Chinese measure seems
to me not only desirable, but absolutely
called for—the most stringent laws
against introducing Chinese immi-
grants as coolies, under contract, or
for any other purpose, are not only
persons. All such obligations are a
form of compulsory labor, that is, of
slavery; and though I know that the
legality of such contracts does not
prevent them from being made, I
cannot but think that if pains were
taken to make it known to the immi-
grants that such engagements are not
legally binding, and that if it is
made a penal offence to enter
into them, that mode at least of immi-
gration would receive a considerable
check; and it does not seem poor a
fact, that, among the Chinese, and
population as the Chinese, can attain
such dimensions as to compete with
the American laborer. Short of
that point, the opportunity is given to
the Chinese of receiving familiar
with better and more civilized habits
of life, is one of the best chances of
which can be opened for the improvement
of the Chinese race. The Chinese, and
one which it does not seem to me that
it would be right to withhold from
them. I am, dear Sir,

Yours very sincerely, J. S. MILL.
To Henry George, Esq., San Francisco.

MIRAGE IN THE SACRAMENTO VAL-
LEY.—A lady correspondent of the
Sacramento *Record*, writing from Elk
Grove, under date of November 24th,
gives the following description of a
mirage seen from her residence on the
Sacramento river, and which she de-
scribes as one of the most curious and
best we have read of like occurrences:

This morning, between the hours of
eight and nine, we had the pleasure
of looking out from our window, and
optical illusions. All that portion of
country skirting the horizon from the
northeast to the northwest, looked
as though it had suddenly become a
confused, everything on that raised
belt was brought out in bold relief, and
pictured against the sky. Ordinarily
we can but just see the tops of the trees
along the banks of the Sacramento, and
where we live (Elk Grove), but now
they loomed up like so many armed
giants, and the whole tree was visible
to the very roots. Houses, windmills,
and all the objects of the landscape were
distinctly seen, appearing, some of
them, like transfixed ghosts that had
forgotten to return to their graves when
daylight appeared; others, like the
monuments, reared by some mighty
genii while we slept. I was not aware
that the country was so thickly settled
as this mirage revealed, for the whole
land seemed filled with a dense crowd
of tomb-stone like houses. The Capitol
and many other buildings of your city
were plainly seen from here. In many
places there was an appearance of
water, which to me looked like small
lakes scattered about. Some thought
it was the river thus brought into view,
but I think that impossible at its pre-
sent low stage. It is a singular and
interesting mirage to assume such an
appearance. Altogether

Town and County Matters.

ADULTERY—SHOOTING AFFAIR.—On Tuesday evening last our town was thrown into an intense excitement over an affair which nearly cost one man his life, and which was but too successful in its results as planned by the principal actor. Some time last Summer one Dr. John M. May came to this county and located as a physician at Colusa, where for a while he practiced his profession. He soon became acquainted with, and won the daughter of a respected and well-to-do farmer named Samuel Hiller. Within a month of the "Doctor's" first appearance, as we learn, the marriage took place, and for a few days all went merrily enough. But their joy was of short duration. For some reason, in less than a month the couple separated and the fair young bride returned to her parents giving as a reason that she was not properly treated, and claiming their protection. A suit for divorce was instituted by the wife some time ago, and at the late session of our District Court the case was referred to C. S. Frost, Esq., for testimony. The family moved into Woodland about the 1st of November, where they remained unmolested until last Tuesday evening, above mentioned. On that day May came to town bent on mischief, and had two brothers, A. B. and Daniel Stump, as assistants, in case of need—all well armed. As night came on a two-horse buggy was procured at one of the tivery stables, and May, with his accomplices, proceeded to Hiller's residence to execute their designs. One of the Stump brothers held the team while May and the other demanded admittance, which was denied them. Making a dash at the door, May forced it open, rushed into the house, seized his wife in spite of her screams and resistance and the help of her father and mother, dragged her to the carriage in waiting near the door. To place her in the vehicle and drive off was the work of a moment, aided as he was; the lady was applied freely and in a few minutes the terrified girl had passed through Main street, screaming for help. Deputy Sheriff Boyle and two brothers, Dep. Stump, who were soon in pursuit, but the start obtained and the cover of the darkness enabled May to steer clear of his pursuers for that night. On the following day a dispatch was received from Colusa, stating that May had passed through that place—the Sheriff's posse a few miles behind. The shooting occurred after May had got off with his shot-gun in the hands of other parts of his body. For a time it was thought he was fatally injured, but next morning he seemed to be likely to recover. A. B. Stump and Hiller were arrested and confined in jail; and the poor mother is frantic over the loss of her beloved daughter. [Just as we go to press we learn that May was arrested at Colusa yesterday, and released on a writ of habeas corpus and re-arrested on a requisition from the Sheriff of this county. He arrived here in charge of the officers this morning and is now in jail. His wife has returned to her parents. The wounded man is doing well under Dr. Ray's treatment, and will be out in a few days. Hiller has been released on bail. Thus ends the affair until the trial comes up at the next Court term, when we shall look for further developments.]

CHINESE GAMBLING.—Gambling is a passion with the Chinese. They are as fond of it as the Indian of fire-water, or as the plantation dandy is of the soft tops of a cotton-bale and the sunny side of a beam in midsummer. The other night the Chinese den opposite the Hunter House was the scene of a little celestial game, in which, as in all such cases, one of the parties was badly worsted, and consequently sorely grieved. John said he "no mind lose en money," but that his watch was gone too. "He chote me. Me no lose watch." And John started for an officer, who made the more fortunate gambler disgorge the watch—worth what the case would bring for old silver—and John went on his way rejoicing. We have since learned that suit was brought before the Justice of the Peace, and that the watch was recovered. One of the Henry to recover the lost money. One of the circumstances, came up to Woodland and commenced proceedings against the losing Mongolian for defrauding of character!—the richest joke of the season. The result has not yet transpired.

A COMPLIMENT—EXTRAORDINARY MARKSMEN.—L. D. Stephens, living at Cache Creek, sends us a brace of fine ducks, accompanied by the following: "The fine appearance that the Democrat makes in its new dress, so places me that I cannot help showing it. As an evidence I send you a brace of ducks, use them. Yesterday evening Mr. Steve Howard and myself went out and in seven single shots we brought down thirty-one ducks. One shot—two barrels—I killed ten ducks. In a short time we succeeded in bagging thirty-eight ducks and two geese. Can any of your 'mud-bird' sportsmen of Woodland beat that shooting?"

RESIGNATION.—Wm. Minis, Senator elect from Yolo and Solano counties, took his departure for Sacramento yesterday, to take his seat in the Legislature on Monday next. Mr. Minis has resigned the office of Sheriff of his county, his term having nearly expired. He will be an active member of the State Senate, and guard well the interests of this district. As he lays down the office of Sheriff he receives the plaudits from the people, "well done good and faithful servant."

NARROW ESCAPE.—A little son of Dr. Plomteux, aged two years, was playing in his father's office the other day, and getting too near the fire-place, his clothes ignited and he was soon in a blaze. Fortunately his father discerned it immediately, and with presence of mind the fire and saved the little one from a horrible death. The little boy was somewhat scorched and the Doctor's hands burned a little, but not seriously.

A NEW DRUGGIST.—The well known druggists, Read & Magee, have succeeded in securing the services of J. S. McCleary, late of Grass Valley, an experienced and reliable chemist, with the addition of whose services their establishment will be more attractive than ever. Physicians' prescriptions carefully prepared, and everything in their line done in the most satisfactory manner. Call and see them.

AT HIS POST.—Hon. John M. Kelley, Representative from Yolo county, took his departure for Sacramento yesterday to be on hand at the opening of the session on Monday. With such men as Kelley and Minis to represent this county and district in the Legislature, no fear but the interests of this section, and of the State at large will be properly attended to.

THE ZEPHYRUS.—This society of young ladies given a public exhibition of an entertaining program in the evening. An entertaining program was given for the occasion, embracing music, readings, essays, recitations, etc. The talent known to exist in this society shows itself in the "course" marked out to be gone through before the public this evening, and we anticipate a rich intellectual treat.

SUNDAY TRAINS.—As will be seen by the new time-table, Sunday trains will be hereafter run on the Cal. P. R. R.—but the time is different from that of week day trains.

WOODLAND PUBLIC SCHOOL.—The following items as to the condition of our Public School, are furnished us by the Principal, W. W. Stone, and should interest every parent: Number of boys in attendance, 103; number of girls, 100; days attendance, 8,888; days absence, 1,002. While on the subject a few remarks bearing on that nuisance to teachers, absentees, may not be out of place. Scholars are dependent in the matter of progress, first, on themselves; second, their teacher; third, their companions. The first two are self-evident; the third may need explanation. A systematic teacher seldom talks to a scholar, but lumps it and addresses an entire class. A pupil may be slow—the teacher is engaged and assurance made doubly sure by repetition of explanations. It is thus, by teaching your little army of ideas to shoot simultaneously, that you out-general old Time. Among bright children (we've lots of 'em) engaged in an intellectual exercise, suggestions and queries pop about like fire-crackers in a four-barrel, aiding the participant in no small degree in the solution of difficult problems. Just imagine the feelings of a live, wide-awake teacher, on beholding Peter or Jerusha step into a class of some ten, just as those ten have been effectually drilled into an understanding of knotty tasks. True, Peter's father-can't dispense with the boy's presence at all times; he had to search for the bung-hole of a wine keg, mislaid on the ranch; and Jerusha, she had a sick cat or a lame chicken; had to go to bed, or discouraged at being put back, they will set down among your failures. Now, parent, sum up the losses. Your child has lost head way and a number of valuable hints—most excellent aids—the progress of the school has been materially retarded, and about ten per cent. of the teacher's success in teaching has been driven away.

DESIRABLE LOCATION.—The Fabrics Tract is but a short distance from the railroad depot. The California Railroad will undoubtedly run through it. It is as rich soil as any in the county, and for beauty is admired by all. It is divided into Lots suitable for Homesteads. Call on C. S. Frost; he is selling very fast.

MARQUEE BALL.—The advertisement of this (to our town, at least) new style of entertainment, appears in to-day's Democrat. The young folks, and some other fond of color, are looking forward to the last night of the year in anxious anticipation of a good time.

PLATS FILED.—We are informed that the plats of Township 10 North, Range 1 and 2 West, have been returned to the Land Office, and parties wishing to file on these lands, will find maps, and all necessary blanks and papers at Frost's Land Agency in Woodland.

THE WEATHER.—This always affords an item, but never mind, we couldn't do without it of some sort. This week has been much more pleasant than the previous one, the high north winds having ceased, and now all is lovely again.

HORSE STOLEN.—On the 31st ult. a valuable animal was stolen from J. McElroy, in Colusa county, for the recovery of which he offers a reward of \$25. See advertisement in to-day's Democrat.

PREACHING.—Rev. Mr. Nash, of the First Presbyterian Church of Sacramento, will preach in the M. E. Church, in this place, on Wednesday evening, December 8th, at 7 o'clock.

IF YOU wish the very best CABINET PHOTOGRAPHS, you must call on BRADLEY & RUSSELL, 429 Montgomery street, San Francisco.

FORE TO MARYSVILLE.—The fare by railroad from Woodland to Marysville is two dollars.

FINE HOUSE AND LOT IN WOODLAND, for sale at a bargain. Inquire of W. A. Henry.

SPECIAL NOTICES.

THE PAIN KILLER is both an internal and external remedy. It should be used at the first manifestation of cold or cough.

THE PAIN KILLER—Don't fail to keep it in the house ready for use.

THE PAIN KILLER is an almost certain cure for cholera, and has, without doubt, been more successful in curing this terrible disease than any other known remedy.

AMONGST Atlantic cables, steam navigation and those progressions of science and art that mark the nineteenth century, not the least useful are Dr. Ayer's medicines. They take rank among the benefactions of mankind, from the rapidity and certainty with which they cure. TAY AYER'S CATHARTIC, on a cough and it is the blood withstand Ayer's Sarsaparilla? Ayer's Pills are the perfection of a purgative—every family should have them, as almost every family does. Not a trifle to be thankful for are good medicines, and the knowledge how to use them for protection from disease. These Dr. Ayer's preparations and publications furnish, and we do not hesitate to commend them.—St. Louis Leader.

DIED.

Near Woodland, Nov. 18th, CHARLES PERNOT, aged 65 years.

[Deceased was a native of England, but emigrated to the United States at an early age. He came to California in 1850, and located near Yolo county near Cacheville, as early as 1852. In 1853 he brought his family to this county, where they have resided ever since. He was a man of remarkable energy and perseverance. For twelve years he was a member of the Christian Church, and died rejoicing in the hope of a blessed immortality. He left a wife and son, besides a step-son, two sons-in-law, a daughter-in-law and several grand-children to mourn his loss. May they all meet him in "the house not made with hands eternal in the heavens."—

FALL AND WINTER IMPORTATIONS:

DON'T DRINK TO-NIGHT.

I left my mother in the door,
My sister by her side;
Their clasped hands and loving looks
Forbade their doubts to hide.
I left and met with comrades gay,
When the moon brought out her light,
And my loving mother whispered me,
"Don't drink, my boy, to-night."

Long years have rolled away since then;
My jolly curls are gray;
But, oh! those words with me yet
And will not pass away.
I see my mother's loving face
With goodness radiating light,
And hear her words ring in mine ears,
"Don't drink, my boy, to-night."

My mother is now resting sweet
In the graveyard on the hill,
But mother's words come back to me
And haunt my memory still.
I've often, often passed the cup;
Oh! then my heart was right,
Because I heard the warning words,
"Don't drink, my boy, to-night."

Bear testimony to the wonderful curative effects of

Dr. Joseph Walker's

CALIFORNIA VINEGAR BITTERS!

Manufactured from the native Herbs and Roots of California.

The Great Blood Purifier!

For inflammatory and chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious Remittent and Intermitting Fevers, disease of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such diseases are caused by Vitiated Blood, which is generally produced by derangement of the digestive organs.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood healthy, and all will be well.

"The Life of all Flesh is the Blood thereof." Purify the Blood and the health of the whole system will follow. It is a Gentle, Purgative as well as a Tonic.

These Bitters are not a gilded Pill, to delight the eye or please the fancy, but a medicinal preparation, composed of the best vegetable ingredients known.

APPROVED PATTERNS AND FINISH!

I employ no "foreman," for 30 years' experience in the trade—10 years in the Eastern States, 20 years on the Pacific coast, (including 9 years' superintendence of the "Pioneer Carriage Shop," Sacramento,) justifies me in assuming that position. Delecting to none the supervision of my work, I am enabled to

Guarantee Satisfaction!

My LARGE and SPACIOUS SHOPS enable me to store large quantities of material, and my

SEASONING FACILITIES,

(the only perfect seasoning apparatus on the coast) enable me to defy competition in quality of seasoned work. For verification of above, one has only to examine my facilities in this line, and compare them with those in other shops. I do not pursue the course adopted by many; on the contrary, I season stock before working, and do not put up green stock in wheels, leaving them to season afterwards. I have and keep on hand a large stock of

OAK AND HICKORY SPOKES,

of all sizes and the finest material the market affords. Also a large variety of

Elm and Locust Hubs.
